Do You Vote Like Men?

Among the last words of David were these: "The God of Israel said, the Rock of Israel spoke to me, he that ruleth over men must be just, ruling in the fear of God." Have we, the voters, the courage to select such men to represent us? They may be found in every community, but when found can they be elected? If the voters at large will answer, it will be "yes," but if the little, local politicians are to answer it will be a thundering "no." When we remember that the politicians do control in public affairs, we are comforted in the thought that the members of a great Christian Church are praying for the "President and all others in authority," and that our Sheriffs are constantly crying out, "God save the Commonwealth."

Senator Daniel's name is often spoken of in connection with the presidence, than that of any other man whose home is south of the Potomac, and yet State Senator Thomas says his public life has been such a "failure." Strange utterance that coming from a man of more than ordinary intelligence.

Whenever Georgia or any other State gets dependent on liquor for a living it would be well to go out and die. Georgia's great loss in revenue will be Georgia's greater gain. There isn't an agent of the devil that means any good to man down with them wherever seen.

What's wrong with the lumber trade that all of a sudden there should be such a slump? No one can doubt that the supply has fearfully diminished and that the time is not far in the future when it will not be equal to the demand. May be a trust is at work, and if so the situation is explained.

Mississippi has a legislature on its hands once in four years and West Virginia only has an election once in four years. Virginia might with profit and great propriety go and do likewise. But there are changes which ought to take place first.

And now the Norfolk City School authorities are growling at the School authorities of the State, over the school desk question. Are we never to have peace in all the departments of the State? Library, Agricultural, and now the Educational again. Too bad.

We cannot understand how any one can think that Governor Glenn acted hastily or recklessly in defending the rights of his people and the honor of his State. To have done otherwise would have been to have skirked solemn, civic duty.

A negro is asking for mixed schools in the District of Columbia, and all the woes of the negroes have come from his own impudence or crime. This last request is unblushing impudence, and should be met with stern rebuke.

Mr. Bryan is the hero of a summer colony also. He didn't rush into the water to rescue the drowning, but he did lift a lady from an auto wreck in time to save her life. So that in the hero business he is the equal of Mr. Fairbanks and Mr. Hearst thus far.

A bachelor lawyer, at a recent meeting of the Virginia Bar Association, undertook to tell people when to get married, and he don't know anything about it himself. Of course such a man should be taxed to support indigent widows.

Taft's victory in Ohio is said to be a barren one as Foraker and his friends are fighting him with "all ours." Uneasy rests the head in Ohio that doesn't rest in the arms of the Statesman of fire works politicities.

President Roosevelt must be enjoying his summer immensely at his private home. Wouldn't the Czar of Russia enjoy an outing like that? Poor man, he might if he would, he has been trained to prefer despotic power to the delight of life.

Suppose North Carolina had been silly enough at the election for Governor to have given the place of honor and of trust to an ex-railroad attorney, think you that she would have won her recent splendid victory? Nay, verily.

Let us give Mr. Roosevelt full credit for not having jumped into the North Carolina complication with army and navy at his back. Ten years ago and he might have done so. He is a wiser and better man.

Georgia is taking two shots at prohibition; first to protect her people against the evil of strong drink, and then to protect her ballot against the ignorant and vicious. Such legislation means something.

The two-cent rate does'nt go into effect in Virginia until October 1st, and no doubt the railroad authorities confidently expect the Supreme Court to permit them to return to the old rate at an early date.

It has the tendency to make one's head swim to read the figures recording the profits of the Standard Oil Co. Fines wont hurt them. Somebody has got to be locked up or the game will go on.

The Virginia authorities are being generally complimented by the manner in which they dealt with the rate question. The work was silently but effectively done. Sunshine is silent but of Almighty power.

Our Congressmen are enjoying a "rest off" this summer, but if there are any railway attorneys among them, they had better resign and resign quick.

Gov. Glenn is going to meet with a rousing reception when he goes North. "All the world loves a lover," and the Governor is a dear lover of his people.

Governor Swanson is said to be ready to call an extra session of the Legislature to deal with the rate question. Governor Glenn did it without the extra help.

If Senator Tillman was as handy with the pitch-fork in the hay field as he is in the Senate, what a valuable citizen he would be.

Wheat seems shy of the dollar mark.

Deafness cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

Sow Crimson Clover

at the last working of corn and other cultivated crops.

It is the King of Soil Improvers,

increasing the productiveness of the land to a wonderful extent wherever it is sown.

It also makes splendid fall, winter and spring grazing, the earliest green feed or a good hay crop, and the land can be plowed and planted in corn or other crops the same season.

Land planted to corn that is sown in Crimson Clover at the last working yields constantly increasing crops of corn each successive year.

Our county fathers would do a great public service if they would have watering troughs erected at Spout Springs, Appomattox and Pamplins. One other great public convenience, and which would not cost as much would be the erection of permanent signboards at the public forks of roads. Will our Board consider these matters promptly?
